PROFESSIONAL EXPERIENCE

UX/UI Designer

Jan 2026 — Present

Pulse JO

- Designed end-to-end user flows for a food delivery mobile application.
- Analyzed user behavior with analytics tools to identify drop-off points and conversion issues, and ran usability testing sessions to validate design decisions.
- Created wireframes, interactive prototypes, and developer-ready UI designs, collaborating closely with engineers to deliver production-ready features.

UX/UI Designer

Jun 2025 — Nov 2025

Syarah.com

- Worked on the Syarah product, designing and improving web and mobile experiences with product managers, developers, and cross-functional teams.
- Conducted user research, usability testing, and A/B experiments, and used Mixpanel to analyze funnels, heatmaps, and drop-off points.
- Created wireframes, prototypes, and high-fidelity UI, supporting the full design lifecycle from research to developer handoff.

UX/UI Designer

Dec 2024 — Present

Freelancer

- Delivered 20+ web and mobile projects across different industries.
 - Worked closely with developers to ensure feasible, production-ready designs and a consistent user experience across platforms.
 - Used AI-powered tools in the design phase to generate UI structures, layout concepts, and design variations, speeding up the workflow and improving overall quality.
-
